Payment card

By connecting a contactless payment card to your account, you will have access to the history of purchases in mobile ticket machines and, in the future, to new functions.

You can assign more than one card to your account.

① Adding a payment card

In order to safely add a contactless payment card to the account, a procedure will be carried out tokenization. After selecting the Add payment card button you will be redirected to the payment operator's website (Bank PEKAO SA) where the card number will be changed into its identifier in a secure and encrypted manner (the so-called token). The Transport Organizer has no information on the actual card number at any stage of registration.

Step 3

Assign payment cards to the account you have created, which you will use to make payments at mobile ticket machines.

By adding a payment card to the system, you will receive, among other things, access to your purchase history and to new features in the near future.

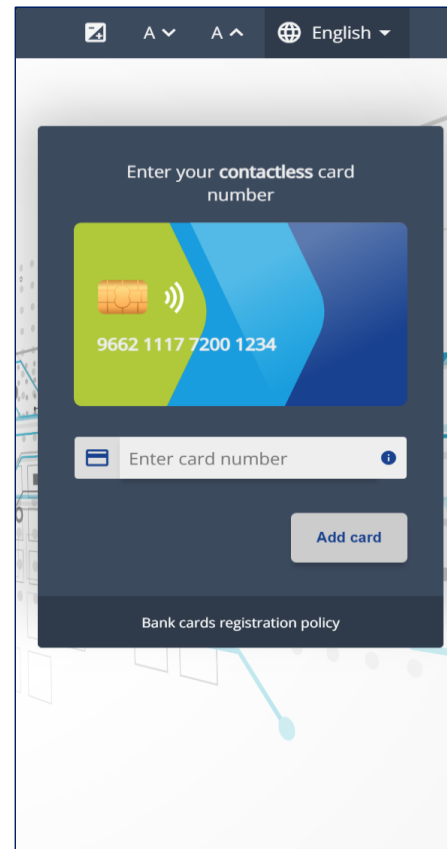

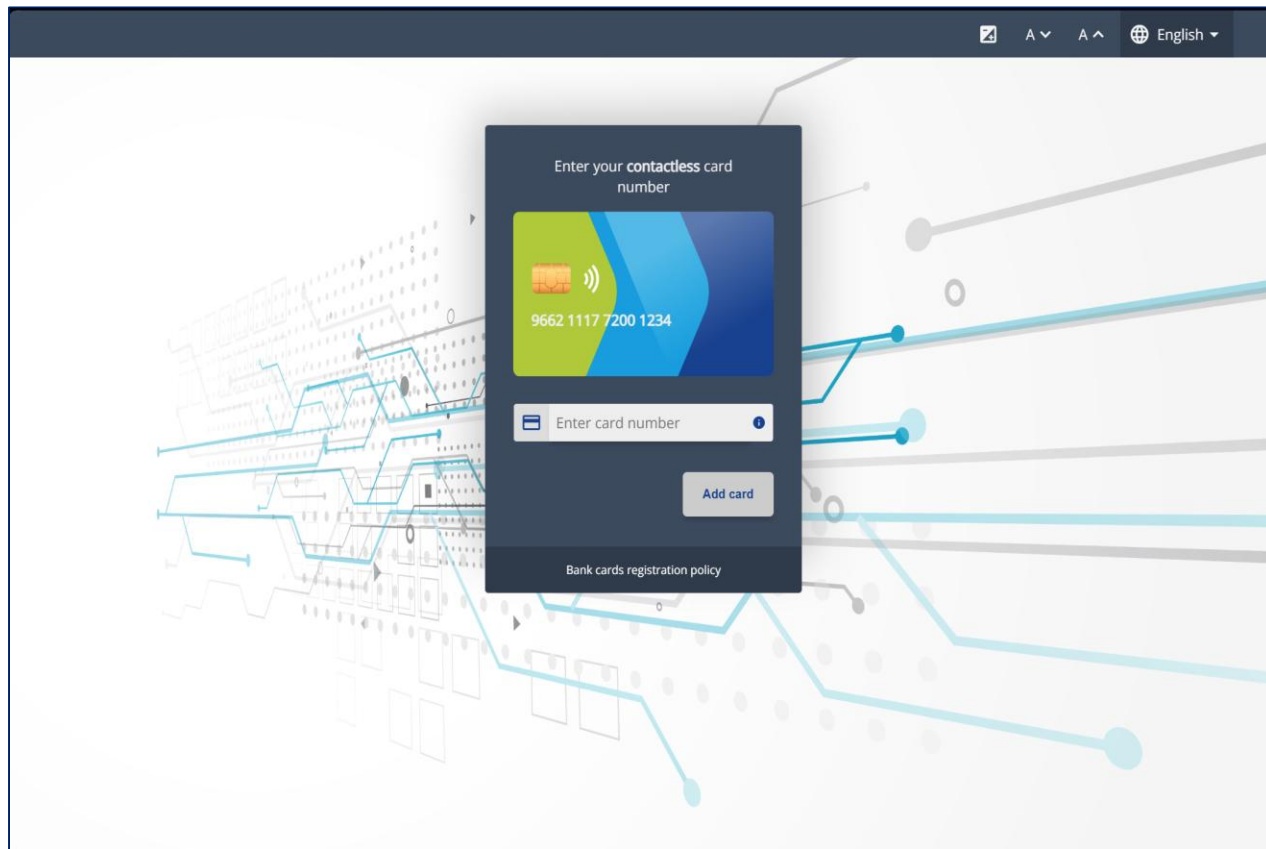

Registration on the portal

Step 3

Adding a payment card to the portal is done by tokenizing its number using the secured website of the payment operator, which is **Bank Pekao SA**.

As a result, the payment card number is replaced with another identifier called a token. This prevents the Transport Organizer (BKM) from having any information about the actual card number at any stage of registration or when the data is subsequently stored in the system.

See also a video explaining how tokenization works

The screenshot shows the BKM passenger portal's 'Sign in' page. A modal titled 'Change password' is open, prompting the user to 'Enter new password to you portal account.' The modal contains two input fields: 'PASSWORD *' and 'CONFIRM PASSWORD *', each with a lock icon and a toggle eye icon. Below the fields are 'CANCEL' and 'CONFIRM' buttons. The background page shows the 'Sign in' section with fields for 'E-MAIL *' and 'PASSWORD *', a 'SIGN IN' button, and links for 'Register', 'Privacy policy', and 'Accessibility declaration'. The top navigation bar includes 'Registration', 'Regulations', and 'Help'.

This screenshot is a close-up of the 'Change password' modal. It displays the title 'Change password' and the instruction 'Enter new password to you portal account.' Below this are two input fields: 'PASSWORD *' and 'CONFIRM PASSWORD *'. Each field has a lock icon on the left and a toggle eye icon on the right. At the bottom of the modal are two buttons: a red 'CANCEL' button and a blue 'CONFIRM' button. The background is a dark grey panel with the BKM logo in the top right corner.

It allows you to change the password to a new one chosen by the user.

Karta PW. **1**

ATTENTION!
Loading the purchased top-up e & # 8209; wallet to the city card in the event of its collection in a mobile ticket machine is possible just a few minutes after receiving an e-mail confirming the receipt of funds on the bank account.

You can use the e-wallet top-up function if you have added at least one city card to your account.

If you have more than one city card assigned to your account, first select the city card (**1**) you wish to purchase from the list. Then, select the top-up amount and payment method (traditional transfer, card payment, or quick payment).

You will receive information by email about any change in the status of your transaction.

E-wallet top-up (option visible after logging in)

The desktop interface shows a sidebar with navigation options: Preview, Ticket purchase, **Wallet top-up**, History, Settings, Regulations, Accessibility declaration, Help, About, and Sign out. The main content area has a progress bar with four steps: Carrier, Top-up amount, **Summary**, and Payment. The Summary step is active, showing a summary of the top-up: Karta PW. > 30 points > 30 PLN. Below this, there is a 'Top-up selection' section with fields for Carrier (Karta PW.) and Top-up (30 points). A 'Price' field shows 30.00 PLN. At the bottom right, there is a 'GO TO PAYMENT' button. An 'ATTENTION!' notice at the bottom states: 'Loading the purchased top-up e & # 8209; wallet to the city card in the event of its collection in a mobile ticket machine is possible just a few minutes after receiving an e-mail confirming the receipt of funds on the bank account.'

The mobile interface shows a hamburger menu icon in the top left and the BKM logo in the top right. The title 'Wallet top-up' is at the top. Below it is a progress bar with three steps: Top-up amount, **Summary**, and Payment. The Summary step is active, showing the same summary as the desktop view: Karta PW. > 30 points > 30 PLN. Below this, there is a 'Top-up selection' section with fields for Carrier (Karta PW.) and Top-up (30 points). A 'Price' field shows 30.00 PLN. At the bottom, there is a 'GO TO PAYMENT' button. An 'ATTENTION!' notice at the bottom states: 'Loading the purchased top-up e & # 8209; wallet to the city card in the event of its collection in a mobile ticket machine is possible just a few minutes after receiving an e-mail confirming the receipt of funds on the bank account.'

Once the payment for the e-wallet top-up has been processed and the relevant information has been received by email, it will be available for collection within 10 minutes only at the mobile ticket machine.

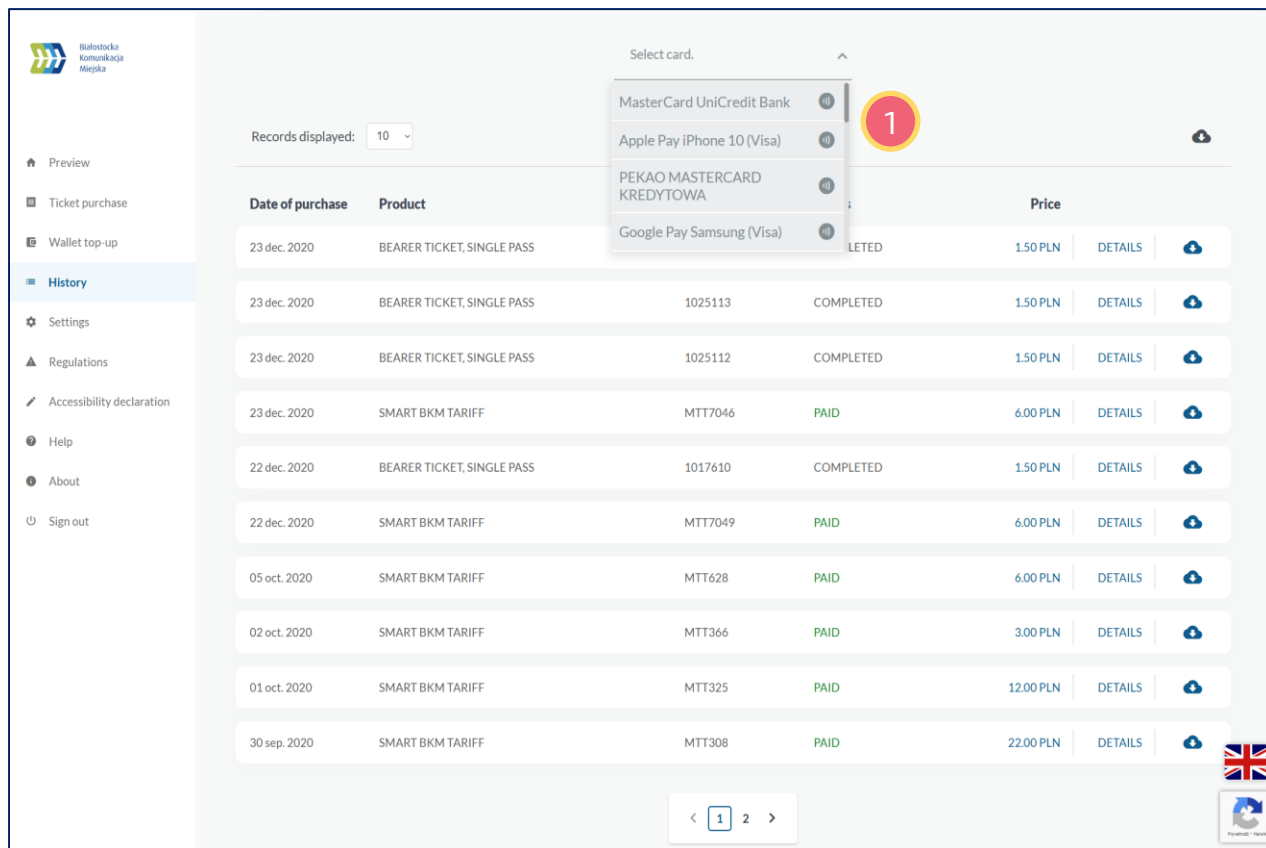

The video showing how to collect the top-up at the ticket machine: <https://youtu.be/LpftHwDbsng>

Important

The maximum amount of funds accumulated in the city card's e-wallet is PLN 200. If you are unable to collect your e-wallet top-up due to exceeding the maximum amount, the purchased top-up will not be forfeited

After selecting **Account Settings**, you can change your password (1) and manage your city cards and payment cards (in particular, add and remove cards (2 and 3), and assign them friendly names).

You can assign more than one card of each type to your account.

For virtual payment cards installed on phones or watches, such as Google Pay, Apple Pay, or Garmin Pay, assigning a card to an account is only possible at a mobile ticket machine.

Account settings (option visible after logging in)

The screenshot shows the 'Profile' settings page. A modal titled 'Change password' is open, prompting the user to enter a new password. The modal contains three input fields: 'OLD PASSWORD', 'NEW PASSWORD', and 'CONFIRM PASSWORD', each with a red asterisk indicating it is required. Below the inputs are two buttons: 'CANCEL' (red) and 'CHANGE PASSWORD' (blue). The background shows the 'Profile' section with a user icon, email 'ontime@pixel.pl', and a 'Change password' button. Below this are sections for 'Assigned city cards' and 'Assigned payment cards'.

Below the inputs are two buttons: 'CANCEL' (red) and 'CHANGE PASSWORD' (blue). The background shows the 'Settings' section with a user icon and a 'Change password' button.

By selecting the **Change Password** option (1) you must enter the new password twice.

Important
The password should be at least 8 characters long and contain at least one lowercase letter, one uppercase letter and a number.

Account settings (option visible after logging in)

The screenshot shows the 'Profile' settings page. A modal titled 'Assign new city card' is open, displaying the following fields:

- CARD TYPE:** Personal city card (dropdown menu)
- CARD NUMBER *:** Please enter card number...
- PERSONAL NUMBER *:** Please enter personal number...
- NAME:** Please enter card name...

At the bottom of the modal are two buttons: 'CANCEL' (red) and 'ADD' (blue). The background shows the 'Assigned city cards' section with a table of active cards.

Adding a new **city card**(2)

To add a personalized city card, provide the card number along with the holder's PESEL number.

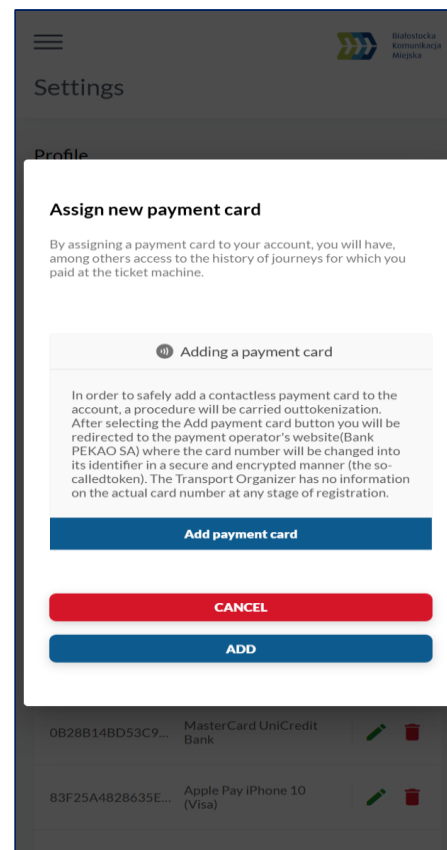

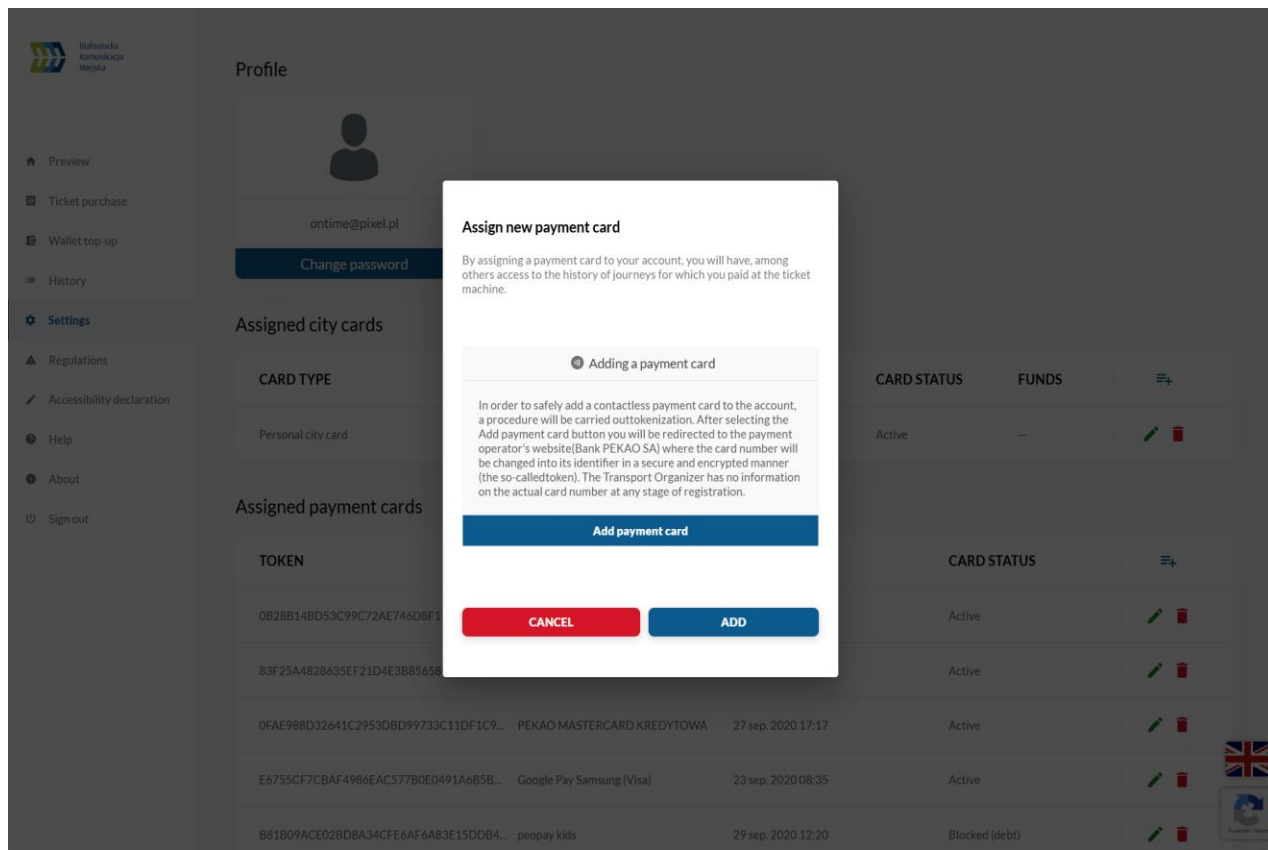

For a bearer card, only the card number is required.

Important

More than one city card can be assigned to an account.

Account settings (option visible after logging in)

You can assign payment cards (3) to the created account , which you will use to make payments at mobile ticket machines. By adding a payment card to the system, you will receive, among other things, access to your purchase history and to new features in the near future

In the case of virtual payment cards installed on phones or watches, such as Google Pay, Apple Pay or Garmin Pay, assigning the card to the account is only possible in a mobile ticket machine.
